All recipients shall be required to review this MANDATORY INFORMATION BRIEF FOR Global FRANTECH information. If you have any questions feel free to contact our worldwide headquarters to discuss further.

CODE OBJECTIVES:

GlobalClear Humanitarian Platform 2010
GlobalClear "EARTH ENERGY" Mission

-----CODE OBJECTIVES BREAK-----

BRIEFING START:

Global FRANTECH Foundation for Humanity, AG ("GLOBAL FRANTECH") was founded with the mission to help people throughout the world; by supplying funds for projects that improve the human conditions in 220 countries.

Our Global FRANTECH Foundation focuses on addressing the 'macro' problems that serve as obstacles to human progress within nations or regions.

A Global FRANTECH Group example would be to provide funding to resolve disease from water contamination. This issue may be resolved by providing infrastructure for water/sewer treatment; rather than building another hospital to treat hospital admissions (resulting from people drinking polluted water).

Global FRANTECH Group seeks to avoid a 'patchwork quilt' of projects that are organized into loose unions; instead preferring to focus on coordinated efforts within a region or nation. By coordinated efforts that involve working with a region's leadership and local citizens (down to a grassroots level); Global FRANTECH Group is able to provide solutions that are appropriate to the beneficiaries of our efforts - the people.

From this perspective, EU GlobalClear (and FRANTECH) collect technologies, expertise, and systems in a comprehensive portfolio of 'best methods'. Best Methods provide the aforementioned 'macro' solutions; in an encompassing partnership with the local populations.

Global FRANTECH and EU GlobalClear do not seek to apply its solutions in a vacuum, but instead serve to act as a comprehensive resource to these populations (in helping them to help themselves).

FRANTECH and EU GlobalClear are not a charities, which often create the negative affect of dis-empowerment (of the very people it was meant to help).

This is not to say FRANTECH or EU GlobalClear do not support emergency aid when requested, but that is an area usually better covered by governments or other NGOs.

FRANTECH NGO DISCLOSURE BRIEF

ENTITIES MAY SEEK NGO ASSISTANCE THROUGH THE FOLLOWING ENTITY FOR EMERGENCY AID

www.FTADO-NGO.org

-----FRANTECH NGO DISCLOSURE BREAK-----

The FRANTECH projects that EU GlobalClear funds are designed to be self-sustaining for the long-term.

MADATORY NEW FRANTECH PROJECT CATEGORIES BRIEF:

NEW FRANTECH Project categories include economic development in 2010;

Innovative and Humanitarian technologies;

Renewable Energy, Solar, Wind, Geothermal, Fushion, Hydrogen.

Education; Housing; Agriculture;

Infrastructure development (power, water, roads,

Rail lines, and etc);

Healthcare (medicine, hospitals, research, and etc); and specific causes related to children and the elderly.

-----MADATORY NEW FRANTECH PROJECT CATEGORIES BRIEF BREAK-----

Global FRANTECH or EU GlobalClear do not, nor will they promote any political, ideological or religious platform.

Our goal at FRANTECH is to supply individuals with the basic needs to survive, create opportunities for themselves, to better themselves through education, and thus have the prospect for a better life.

Selection of projects to be funded will be made through a careful and thorough due diligence procedure that must meet certain standard compliance requirements.

FRANTECH WEB DISCLOSURE

www.FRANTECHUSA.com

-----FRANTECH WEB DISCLOSURE BREAK-----

Final approval will be given when this procedure is successfully completed, and endorsement is given by a majority vote of the board of directors for Global FRANTECH and EU GlobalClear.

FRANTECH and EU GlobalClear will adhere to all existing international laws and those set up by entities such as: the appropriate U.S. Federal authorities, United Nations, European Union, International Monetary Fund, and the World Bank.

FRANTECH and EU GlobalClear is independent of these organizations but intends to fully co-operate with them if and when necessary.

All Global FRANTECH grant funds distributed will be monitored by accredited outside sources to assure appropriate use of funds on an ongoing basis, (as well as the successful completion of the FRANTECH project's worldwide).

Simply stated Global FRANTECH / EU GlobalClear intend to work towards making the world we live in a better place for all mankind. We intend to use our resources to achieve this goal of "The Neutral Zone Developments."

INTELLIGENCE REPORT SECTION IV: GENERAL PURPOSES OF GLOBAL FRANTECH

Global FRANTECH Group is Your International Partner for Technology Transfer, Financial Funding and Investment Banking Service.

At FRANTECH our mission is to foster the development of a Global Economy; by providing a Global Perspective to marketers, manufacturers, and inventors of newly-emerging technology. For this we have been providing world-class solutions for licensing (and transfer) of innovations to emerging economies in 220 countries.

For achieving our mission of making developing economies thrive; the structure and essence of Global FRANTECH Group has been discreetly created by our Chairman (Mr. Philip J. Nadeau); who believes that, "In a world of accelerating, inescapable economic and trade interdependence; business success will be won not by isolated individual enterprises (or internationally disengaged companies) but by strategic alliances and marketing structures creatively assembled with a global perspective."

To accomplish our mission and move towards our goal, this vision has been imbibed in every activity at FRANTECH. Since its inception 35 years ago, FRANTECH has been the most trustworthy platform where global exchange of technology (or trade) is concerned. Consisting of core partners (surrounded by interlocking networks of consultants and affiliates) in key trading countries and disciplines; we play a significant role in the development of economies across 220 countries of the world.

At FRANTECH three decades of our expertise in assembling, negotiating (and consummating) trade, technological (and financial) agreements are utilized to give comprehensive services to innovators and entrepreneurs. It is also to provide such a broad array of exhaustive services where we (along with our affiliates) draw strength from our shared experience in international trade policy, law, marketing, investment banking and technology research.

In brief, Global FRANTECH Group can be defined as an organization that provides comprehensive professional services to assist companies (and investors) in seeking to benefit from today's fundamental restructuring of the global economy. With FRANTECH's platform US technologies are transferred to developing economies (and newly emerging technologies) from other parts of the world that are developed as viable business prospects in their respective markets.

At Global FRANTECH group we also support large scale real estate and humanitarian projects by extending our marketing expertise and providing resources for funding.
